

Audit Practice - Circa \$500,000 fees

Rare opportunity for you to own an established Audit Practice

Are you sick of working for someone else? Do you want to have your own Audit Practice? This is a fantastic opportunity for an Audit Manager wanting to commence their own business or perhaps an Audit Partner who is wishing to exit for some reason.

Business Opportunity

The current owner of an Audit Practice is retiring and wanting to sell the Audit Practice. It is a successful Audit Practice with a wide range of audit clients including trust accounts, not for profits, unlisted companies, listed company, AFSL and SMSF audits. Fees are circa \$540,000.

The Seller is willing to assist the Purchaser in whatever capacity is required to make for a smooth and successful transition. This is perhaps one of the best audit opportunities we have seen and the Seller is genuinely interested in a successful outcome.

This opportunity will suit someone who is perhaps a partner in an existing audit firm and is wishing to exit for some reason. Alternatively it could also suit an audit manager who is wishing to commence practice at a reasonable scale, with good support. This audit practice is already staffed.

The Purchaser will need to be a registered company auditor and registered SMSF auditor. There are some unique circumstances with this practice such that a Purchaser will have support from a national association/affiliation. It will need to operate from the existing location and has arrangements with an existing accounting practice which the Seller and the accounting practice would like to be continued. This has some advantages due to cross referrals and other benefits, including additional work.
